

DIPALESENG LOCAL MUNICIPALITY

PUBLIC NOTICE

THE MUNICIPALITY INFORMS THE COMMUNITY OF THE NEGATIVE IMPACT THAT LOAD SHEDDING HAS ON THE PROVISION OF WATER TO DIPALESENG COMMUNITIES. THIS IS DUE TO THE FACT THAT CRITICAL FEATURES OF WATER PURIFICATION, PUMPING AND STORAGE ARE ELECTRICITY POWERED.

THE ABSENCE OF ELECTRICITY UNDER THE CURRENT STATE OF VARYING STAGES OF LOAD SHEDDING AFFECTS AND/OR HINDERS THE DESIRED PROCESS FLOW OF WATER DISTRIBUTION TO DISTURBING LEVELS WHICH ULTIMATELY REAPS DEVASTATING CONSEQUENCES SUCH AS OF LACK OF WATER SUPPLY.

AREAS LIKE GREYLINGSTAD AND NTHOROANE ARE DUE TO BE MORE AFFECTED DUE TO DIFFERENT SEQUENCING OF LOAD SHEDDING BETWEEN BALFOUR, GREYLINGSTAD AND GROOTVLEI.

THE COMMUNITY IS THUS ENCOURAGED TO BE CONSERVATIVE AND USE WATER SPARINGLY, AT LEAST UNTIL SUCH TIME THAT THE NATIONAL GRID IS STABILIZED.

THE MUNICIPALITY APOLOGIZES FOR ANY INCONVENIENCE THIS MALADY MIGHT CAUSE.

MR. LWAZI CINDI
ACTING MUNICIPAL MANAGER
