## **1. LEGISLATIVE BACKGROUND**

### **1.1 The Integrated Development Plan**

Section 35 of the Local Government: Municipal Systems Act 32 of 2000 stipulates that the IDP is the principal strategic planning instrument, which guides and informs all planning and development, and all decisions with regard to planning, management and development in a municipal area. As stipulated in Section 25 of the MSA, an IDP adopted by a municipal council must:

- Link, integrate and coordinate plans and take into account proposals for the development of the municipality.
- Align the resources and capacity of the municipality with the implementation plan;
- Form the policy framework and general basis on which annual budgets must be based;
- Complies with the provisions of the MSA, with particular reference to Chapter 5; and
- Be compatible with National and Provincial plans and planning requirements binding on the municipality in terms of legislation.

### **1.2 Adoption of a Process Plan**

In terms of Section 28 of the Local Government: Municipal Systems Act (Act 32 of 2000), the MSA, (1) each municipal council, within a prescribed period after the start of its elected term, must adopt a process set out in writing to guide the planning, drafting, adoption and review of its integrated development plan. (2) the municipality must through appropriate mechanisms, process and procedures established in terms of Chapter 4, consult the local community before adopting the process.(3) a municipality must give notice to the local community of particulars of the process it intends to follow.

### **1.3 Sector Plans IDP**

Various Local Government legislation and regulations provide, *inter alia*, for the key sector plans that must be developed, approved implemented by municipalities. Table 1 below reflects on the key sector plans that are required.

**Table 1: Sector plans to be included in IDPs**

In terms of Section 153 of the Constitution municipalities must participate in national and provincial development programmes. Moreover, Section 25 of the MSA states that an IDP adopted by the Municipality must be compatible with national and provincial development plans and planning requirements binding on the municipality. Thus the following plans must be considered:

- The National Development Plan
- New Growth Path
- National Spatial Development Perspective
- Medium Term Strategic Framework
- Provincial Strategic Framework
- Provincial Growth and Development Plan
- Mandate of local government
- Millennium Development Goals
- Mpumalanga Vision 2030

#### **1.4 Municipal Sector Plans**

The following are key sector plans that must be developed in line with the IDP Process. The most attention must be given to sector plans which were developed at the local municipal level. Some plans are District wide and are now in place while some still have to be developed. The following is a list of sector plans that are required:

- Water Services Development Plan
- Environmental Management Strategy
- LED Strategy
- Transport Plan
- Disaster Management Plan
- Spatial Development Framework
- Integrated Waste Management Plan
- Housing Chapter
- Agriculture Development Plan
- Tourism Plan
- Financial Plan
- Communication strategy
- HIV & Aids Strategy
- Gender Policy ( SPU development plan)
- Infrastructure Master Plan
- Energy Master Plan

#### **1.5 Other issues to be considered**

Key within the issues that must be considered during the IDP compilation process are:

- National and Provincial Service Delivery targets
- Mandate for local Government
- Municipal Turn Around Strategies
- Comments and inputs emanating from IDP processes
- Comments emanating from IDP engagement sessions
- Consideration of outcomes and inputs emanating from stakeholder engagements
- Amendments due to changing circumstances
- Need for general improvements of current processes and systems.
- Resource re-allocation and prioritization
- Organizational development and its intricacies
- Alignment with National and Provincial frameworks and plans
- Review of the previous years' plans and lessons learnt
- Reviewed sector plans;
- Council's strategic planning sessions
- National Key Performance Indicators
- Credible IDP Framework

The table 2 below summarises some other matters that must be considered during the review of the IDPs.

**Table 2: Framework Guide for credible IDPs**

Focus Area	Delivery Focus Area	Performance Definition1
1.Service Delivery Sanitation	Sanitation	What is your plan to achieve the national targets on sanitation and needs of the area?
	Water	What is your plan to achieve the national targets on water provision and management needs of the area.
	Refuse Removal	What is your plan to achieve the national targets on waste removal and management needs of the area.
	Infrastructure plans	Other bulk infrastructure plans for this year.
	EPWP	Projects to be undertaken this financial year.
	Electricity	What is your plan to achieve the national targets on electricity provision and needs of the area?
	Municipal Roads	Plans to address access roads as well as existing roads maintenance.
2.Institutional Arrangements	Human resource strategy	What is the plan of maintaining existing infrastructure (i.e. buildings)
	Skills Development Plan	Skills development and attraction strategy to address the delivery needs experienced by the municipality.
	Performance Management System	How is the system aligned to the IDP delivery targets, plans to monitor the implementation of the SDBIP. Is performance management implemented with respect to all relevant officials?
	Operations and Maintenance	What is the plan of maintaining existing infrastructure (i.e. buildings)
3. Local Economic Development	Alignment (NSDP; PGDS)	What is your LED plan, elements of alignment to the NSDP, PGDS, ASGI-SA projects (where relevant).
	DM / LM interface	District plan contribution to the local LED. Local LED contribution to the district economic growth.
	Special groups	LED plans to empower and share the local economy with women, youth and the disabled.
	1st and 2nd Economies	
4.Financial Management and Corporate	Submission of FS	Are the financial statements timeously (two months after end of financial year) submitted to the Office of the Auditor-General?

Governance (Compliance with MFMA and MSA)	Audits	Have the observations of the AG on a) the financial audit b) the performance audit been acted upon in terms of corrective governance procedures and approaches?
	Financial Plan (MSA s 26h)	Is there a financial plan that includes a budget projection for at least three years?
	Budget	Does the compilation and management of the budget comply with the provisions of the MFMA: sections 16 – 26? Are there measurable performance objectives for each vote in the budget, taking into account the IDP?
	Duties of office bearers re budget (Mayor: MFMA, sections 21-23 and 52 and 54) (Municipal Manager, sections 68-72)	Has the Mayor performed his or her budget duties: coordinated the processes, tabled a schedule 10 months before start of financial year and consulted with relevant stakeholders? Has the MM undertaken his or her reporting and administrative duties re the Act? Is the budget timetable adhered to (July to June)?
	Service Delivery The SDBIP is a tool approved by the Mayor to manage, and Budget Implementation Plan (SDBIP) (MFMA: Section 53)	The SDBIP is a tool approved by the Mayor to manage, implement and continuously monitor delivery of services, spending of budget allocations, performance of senior management and achievement of the strategic objectives set by the Council. Is this plan operative?
	SDBIP: Political and executive accountabilities	Has a S 53 document been adopted by Council and are systems in place for effective strategic management?
	Division of Revenue DORA Equitable Share: Schedules 2 and 3 MIG (infrastructure transfers) Schedule 4B Capacity building Section 14	Municipalities need to demonstrate financial planning aligned to DORA (ES; MIG; Transfers for capacity-building) and have plans to both manage revenue shortfalls and enhance revenue collection.
	Revenue Management MFMA: s 61; MSA: s 95)	Check that the accounting officer is taking all reasonable steps to comply with legal requirements.
	Project Consolidate Interventions	Is the role of CDW's articulated and incorporated into the IDP? Check budget for skills and capacity development projects.
	Community participation – budget (MFMA Section 22 – 23)	Has the draft budget been made public and a meeting held with the community to ascertain development priorities? Are these priorities incorporated into the IDP?

	Anti-corruption	Does the IDP convey a discernible commitment to clean and accountable governance and evidence of investigative action in cases of malpractice?
5. Governance	Public Participation	Check compliance with MSA: Have appropriate mechanisms, processes and procedures been put in place to enable the community to participate in the affairs of the municipality? E.g. Public meetings, availability of IDP to community; involvement of community in development, implementation and review of the municipality's performance management system; Were community involved in setting of appropriate key performance indicators and targets for the municipality? Are these initiatives reflected in the IDP?
	Code of Conduct for Councillors and municipal staff members (Sections 1 and 2, MSA)	Have all staff and members signed the Code of Conduct? Are the provisions of these sections adhered to re general conduct, duties disclosures? Does the community have access to the Codes of Conduct?
	Ward Committees	Total number of Ward Committees established as per the number of demarcated municipal wards; Are Ward Committee functional; do they comply with Terms of Reference of establishment? Does the IDP report on their contribution to development in the municipality?
	Communication	Is the municipality complying with MSA (S21) directives regarding communication to the local community? E.g. Official website should be established (if affordable; if not via an intergovernmental arrangement); Website or public place must contain documents to be made public in terms of the MPFMA and MSA. Are there indications of a positive interface between council, ward committee and community?
6. Intergovernmental relations	Cooperative governance	MSA S3 defines how local government must develop cooperative approaches to governing, resource share and solve disputes and problems within context of IGR. Are these principles discernible in the IDP?
	Establishment of IGR Forums: Provincial –	The IGRF Act requires that there are provincial and district intergovernmental forum to promote and

	Premier's Forum Interprovincial forums; Local: District forums; Inter-municipality forums	facilitate IGR between a) provinces and local government, and b) district and local Is the IDP benefiting from intergovernmental dialogue?
	Role of IGR Forums to promote service delivery	The forum must meet at least once a year with service providers and other role players concerned with development in the district, to coordinate effective provision of services and planning in the district. Does the IDP reflect engagement with forums?
	Reporting and sector involvement in planning	The Premier of a province must report to PCC on the implementation of national policy and legislation within the province. The role of sectors in local delivery must be clearly articulated. Is the IDP aligned to these obligations?
	Assignment of Powers and functions	Do appropriate intergovernmental agreements facilitate effective management of assignments within the municipality?
7. Spatial Development Framework	Sustainable Human Settlements	Check that municipalities are familiar with Housing dept policy on SHS and implications of new accreditation framework. Municipalities need to be working inter-governmentally to sustain joint planning in land access, economic and labour profiling, infrastructure delivery and provision of services.
	National Spatial Development Perspective (NSDP)	The updated NSDP is being communicated to provinces and municipalities between February and April. Ensure principles are understood and there are management plans to ensure these are incorporated into joint planning initiatives aligned to the NSDP economic and social profile for that province / region.
	Provincial Growth and Development Strategy (PGDS)	New Guidelines are available for provinces and municipalities to structure their planning aligned to regional profiles and in spirit of economic and resource cooperation.
	Economic profile	Has the NSDP overview been extrapolated and integrated into local economic development initiatives based on local and regional economic realities?
	Geographic profile	Are studies undertaken to understand environmental and geographic characteristics of the region and the implications for economic spatial choices?
	Demographic profile	Have the demographics of the region in terms of household size, poverty statistics, migration,

		labour preferences, birth and death rates been factored into the spatial strategy of the municipality?

### 3. APPROACH AND PRINCIPLES TO BE APPLIED

#### 3.1 The 2017-2018 IDP compilation process

The compilation of the 2017-2018 IDP will consist of the following phases: preparation, analysis, strategies, projects, integration and approval phase (see figure 1 below).

**Pre-Planning Phase:** Before starting the planning process, an IDP Process Plan must be drawn up. This plan is meant to ensure the proper management of the Integrated Development Planning Process. The Plan must be set out in writing in terms of the legislation and must comply with the provisions of the District Framework Plan in terms of the binding National and Provincial Planning Frameworks, mechanisms and processes stipulated in the Framework **District Framework**. All municipalities must adopt their IDP Process Plans by **July** subsequent to the adoption of the District Framework Plan by the **July**.

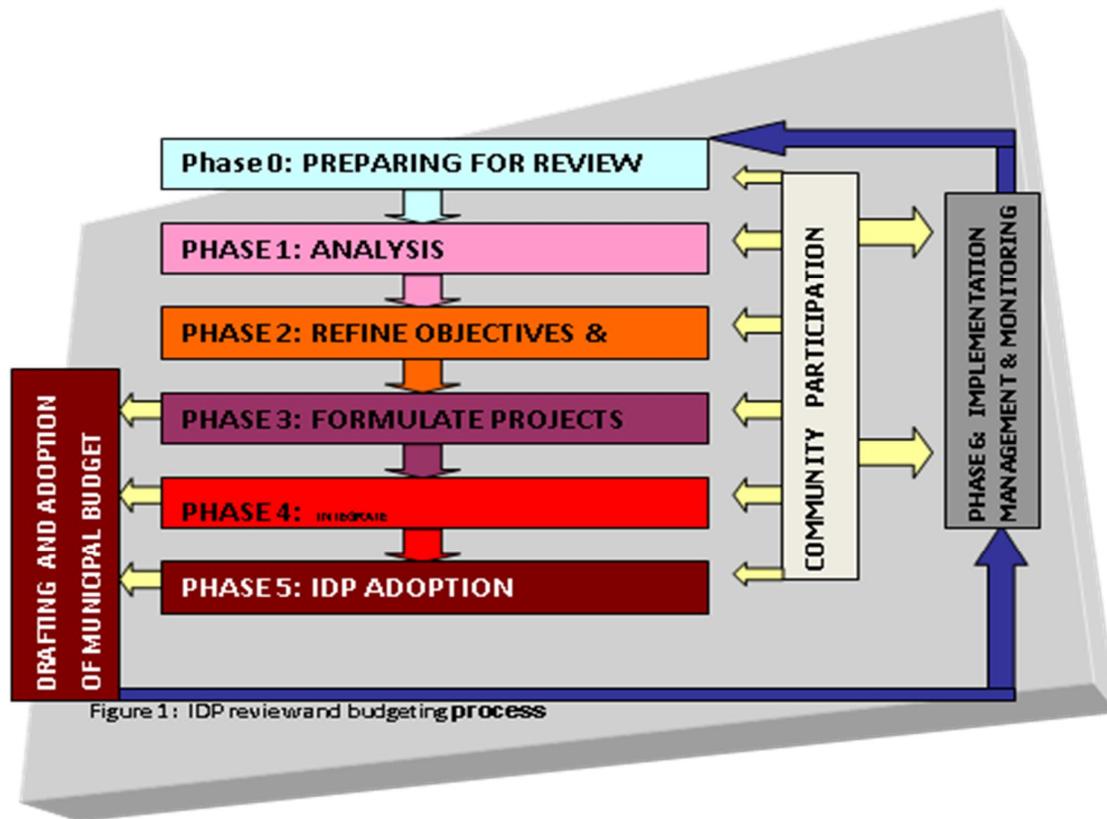

Figure 1: IDP review and budgeting process

**Analysis Phase:** During this phase information is collected on the existing level of development within the municipality. When assessing the existing level of development in the municipality, the level of access to basic services and those communities that do not have access to these services must be identified. Focus must be on the types of problems faced by the community in the area and the causes of these problems. The identified problems are assessed and prioritised in terms of what is urgent and what needs to be done first. Information on the availability of resources is also collected during this phase. Priority issues highlighted during the **2016/2017** IDP processes will also be revised and confirmed during this phase. Community meetings, stakeholder meetings, surveys, opinion polls and researched information should form the basis of this phase. This phase should be completed by **September**.

**Strategies Phase:** Municipalities must begin to contemplate on the best possible strategies to tackle the identified challenges. This phase is critical in this process in order to ensure a focused analysis, the municipal vision must be confirmed and development objectives containing clear statements of what the municipality would like to achieve in the medium term to deal with the problems outlined in the first phase be confirmed. Internal transformation needs, Council's development priorities must be taken into account when formulating council objectives. This process should involve strategy workshops, targeted stakeholder engagements, public hearings, sector Provincial and National department engagements, social partners, interest-based groups and organized civil society.

Once the municipality has worked out where it wants to go and what it needs to do to get there, it needs to work out how to get there. Development strategies must then be developed focusing on finding the best way for the municipality to meet a development objective. Once the municipality has identified the best methods and strategies towards achieving its development objectives, the identification of specific projects must commence. This phase should be completed by **October**.

**Projects Phase:** During this phase the municipality works on the designs and content/specifications of projects identified during the prior phases. Clear details for each project have to be worked out. Clear targets must be set and indicators worked out to measure performance as well as the impact of individual programmes and projects. The identified projects must have a direct link to the priority issues and objectives identified in the previous phase. Municipalities must ensure engagement of internal technical committees, possibly with selected key stakeholders. The needs and views of the affected communities must be taken as a priority. The project technical committees and their subcommittees must be able to distinguish between the strategic municipal wide development programmes and the localised community-level projects. This phase should be completed by **January**.

**Integration Phase:** Once all projects have been identified, the municipality must confirm that the identified projects will achieve the desired impact in terms of addressing the identified challenges and are aligned with the objectives and strategies and comply with legislation. The identified programmes/projects will set the pace and direct the trajectory emanating from the overall picture of the development plans of all the stakeholders, including sector departments and social partners.

Public discussions, community engagements and opportunities for comments from the public and interested stakeholder organisations must be facilitated and appropriate mechanisms should be in

place and be institutionalised. Towards the completion of this phase municipalities must also conduct IDP engagements to confirm the chosen development trajectory with all the stakeholders.

This process should continue concurrently with the public notice period in terms of S15 (3) of the Municipal Planning and Performance Management Regulations, which require that a municipality must afford the local community at least 21 days to comment on the final draft of its integrated development plan before the plan is submitted to the council for adoption.

In terms of S30 of the MSA, the executive committee or executive mayor of a municipality must, inter alia, in accordance with S29 of the MSA, submit the draft plan to the municipal council for adoption. Thus, adoption of the draft IDP by the municipal council will be a precondition for giving notice about a draft IDP for a financial year in order to, inter alia, improve transparency and accountability between the council and the communities. This phase should be completed by **February**.

**Adoption/Approval Phase:** After the completion of the IDP compilation process, the IDP document must be presented to the council for consideration and adoption. All local municipalities must adopt their final IDP by **March each year**. In terms of S36 of the MSA, a municipality must give effect to its IDP and must conduct its affairs in a manner which is consistent with its Integrated Development Plan. The budget of the municipality must be informed by the adopted IDP. The public must be informed of the adoption of the reviewed Integrated Development Plan by notice in a newspaper circulating in the District or by placing the notice in official notice boards in terms of Section 25 (4) of the Act. It is critical to note that in terms of S25 (4) (b) of the MSA, municipalities must after adoption of the IDP publicise a summary of the Plan for inspection by interested and affected parties, stakeholders and general members of the public.

#### **4.1.2 Drafting and adoption of municipal budget**

The drafting of the Municipal budget is regulated in terms of the Municipal Finance Management Act of 2003 (MFMA). S21(1) of the MFMA states that the mayor of a municipality must co-ordinate the processes for preparing the annual budget and for reviewing the municipality's integrated development plan and budget-related policies to ensure that the tabled budget and any revisions of the integrated development plan and budget-related policies are mutually consistent and credible. At least 10 months before the start of the budget year the Mayor must table in the municipal council a time schedule outlining key deadlines for the preparation, tabling and approval of the annual budget. In order for the municipal council to adopt the budget of the municipality, the mayor of the municipality must table the annual budget at a council meeting at least 90 days before the start of the budget year in terms of S16 (2) of the MFMA, which annual budget must be approved by the council, in terms of S16 (1) of the same Act, before the start of that financial year.

#### **3.2 Submission of the approved IDP to the MEC for Local Government**

In terms of S32 (1)(a) of the MSA, the Municipal Manager of a municipality must submit a copy of the Integrated Development Plan as adopted by the council of a municipality and any subsequent amendments to the plan, to the MEC for local government in the province within 10 days of the adoption or amendment of the plan. Such a copy must be accompanied by a summary of the process in terms of S28, a statement that the process has been complied with, together with any explanations that may be necessary to amplify the statement.

### **3.3 Drafting of a Municipal Budget**

The drafting of the municipal budget is regulated in terms of the Municipal Finance Management Act of 2003 (MFMA). S21 (1) of the MFMA states that the mayor of a municipality must co-ordinate the processes for preparing the annual budget and for reviewing the municipality's Integrated Development Plan and budget related policies to ensure that the tabled budget and any revisions of the Integrated Development Plan and budget-related policies are mutually consistent and credible. At least 10 months before the start of the budget year the Mayor must table in the municipal council a time schedule outlining key deadlines for the preparation, tabling and approval of the annual budget. In order for the municipal council to adopt the budget of the municipality, the mayor of the municipality must table the annual budget at a council meeting at least 90 days before the start of the budget year in terms of S16 (2) of the MFMA, which annual budget must be approved by the council, in terms of S16 (1) of the same Act, before the start of that financial year.

### **3.4 Implementation Management & Monitoring**

Chapter 6 of the MSA requires municipalities to develop and implement performance management systems. A municipality's performance management system entails a framework that describes and represents how the municipality's cycle and processes of performance planning, monitoring, measurement, review, reporting and improvement will be conducted, organised and managed, including determining the roles of the different role-players. A performance management system must be adopted before or at the same time as the commencement by the municipality of the process of setting key performance indicators and targets in accordance with its integrated development plan. The system further provides the municipality with a mechanism of early warning for under-performance and promotes accountability and good corporate governance.

In order to implement the identified performance objectives and targets through the budget, S53 of the MFMA requires that the Mayor approves the municipality's service delivery and budget implementation plan (SDBIP) within 28 days after the approval of the budget. The implementation of the SDBIP must be linked to the performance agreement entered into between the Municipal Manager and the Managers directly accountable to him/her in terms of S56 of the MSA.

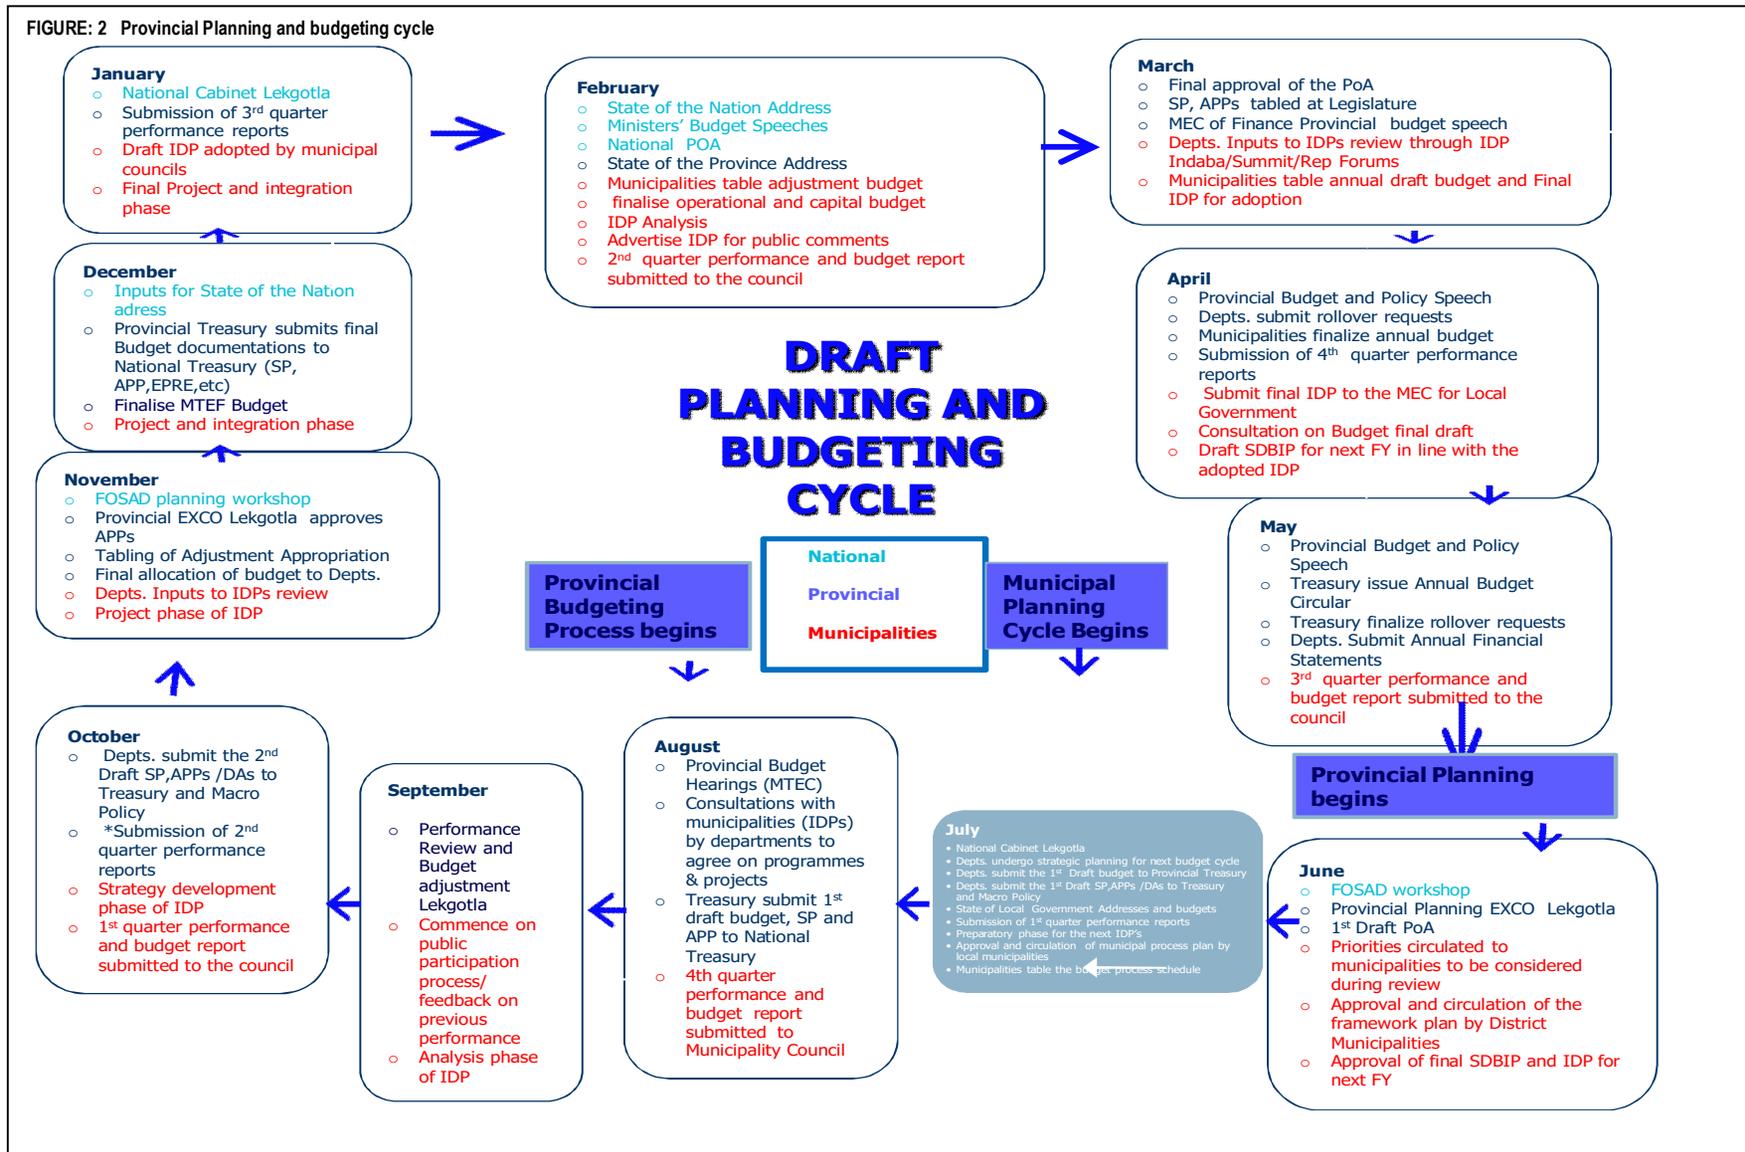

In terms of the Local Government: Municipal Planning and Performance Management Regulations, 2001, a municipality must, after consultation with the local community, develop and implement mechanisms, systems and processes for the monitoring, measurement and review of performance in respect of the key performance indicators and performance targets set by it. The mechanisms, systems and processes for monitoring must:

- provide for reporting to the municipal council at least twice a year;
- be designed in a manner that enables the municipality to detect early indications of underperformance; and
- provide for corrective measures where under-performance has been identified.

A municipality must develop and implement mechanisms, systems and processes for auditing the results of performance measurements as part of its internal auditing processes. In order to fully execute the function of auditing performance, S14 (2) (a) of the Regulations require that a municipality must annually appoint and budget for a performance audit committee.

### **3.6 Process for amending an adopted IDP**

In terms of Section 3 of the Municipal Planning and Performance Management Regulations of 2001, only a member or a committee of a municipal council may introduce a proposal for amending the municipality's Integrated Development Plan in the council. Any proposal for amending a municipality's Integrated Development Plan must be aligned with the Process Plan adopted in terms of S28 of the MSA.

In terms of the regulations, no amendment to a municipality's Integrated Development Plan may be adopted by the municipal council unless:

- all the members of the council have been given reasonable notice;
- the proposed amendment has been published for public comment for a period of at least 21 days in a manner that allows the public an opportunity to make representations with regard to the proposed amendment;
- the municipality, if it is a district municipality, has consulted all the local municipalities in the area of the district municipality on the proposed amendment and has taken all comments submitted to it by the local municipalities in that area into account before it takes a final decision on the proposed amendment.
- the municipality, if it is a local municipality, has consulted the district municipality in whose area it falls on the proposed amendment, and has taken all comments submitted to it by the district municipality into account before it takes a final decision on the proposed

## **4. MECHANISMS AND PROCEDURES FOR PUBLIC PARTICIPATION**

Chapter 4 of the MSA stipulates that municipalities must develop a culture of community participation. Section 16 of the MSA requires municipalities to complement formal representative government with a system of participatory governance, and must for this purpose, *inter alia*, encourage and create conditions for the local community to participate in the affairs of the municipality, including:

- During the preparation, implementation and review of its Integrated Development Plan;
- The establishment, implementation and review of its performance management;
- The monitoring and review of its performance, including the outcomes and impact of such performance and;
- The preparation of its budget.

It is therefore evident that public participation should be promoted in order to achieve, *inter alia*, the following objectives:

- Consult with the community on their developmental challenges
- Form basis for people-centred governance and bottom-up planning process
- Improve the relationship between council and the communities and thereby improve political accountability and transparency
- Empower communities through information dissemination/assimilation
- Establish the community feedback programme, which allows local leaders the opportunity to interact with communities on issues of service delivery.
- Provide communities with a platform to influence the developmental trajectory of municipalities and government in general

- Provides the municipality with a project/programme evaluation and implementation monitoring feedback mechanism

#### **4.1 Advertisement of Draft IDP and Budget**

In terms of the Municipal Planning and Performance Management Regulations, 2001, a municipality must afford the local community at least 21 days to comment on the final draft of its Integrated Development Plan including other by-laws and strategic plans and documents, before the plan is submitted to the council for adoption. Before tabling any of these documents before council for approval, the draft documents must be presented to stakeholder participation forums, including the IDP Representative Forum where such a forum exists.

#### **4.2 Communication Channels**

In terms of S20 and S21 of the MSA, communication inviting public comments and written representations from the local community in terms of the above matters, must be done through:

- A local newspaper or newspapers circulating in the municipal area, and in any newspaper determined by the council as a newspaper of record;
- Radio broadcasts covering the area of the municipality;
- Municipal notice boards, including those located at libraries, satellite offices, and municipal websites.

#### **4.3 Mayoral Community Meetings**

The JGDM has institutionalised a Mayoral Community Participation Programme that aims at improving communication and interaction between the District, the local municipalities and the community at large on issues of service delivery and development. Thus, the District will continue to visit each municipality at least once in a financial year as detailed in the Framework Plan Activity schedule. Similarly, each local municipality should conduct at least two community participation meetings in each ward/cluster of wards in a financial year.

#### **4.4 Involvement of Ward Committees and Community Development Workers**

Ward committees are key in this process as stipulated both in the Municipal Structures Act and the MSA. Ward committees represent the development aspirations and needs of the wards they represent and also form an information assimilation/dissemination medium between a municipal council and the community.

The ward committees are key in the development, implementation, monitoring and evaluation of municipal performance on service delivery as stipulated in the municipal IDP. Ward committees are a formal representation of the public in government affairs; the Structures Act provides that ward committees should be established in each ward.

This will deepen the involvement of local communities in local government processes. This also applies to implementation, monitoring, evaluation as well as planning. Thus, ward committees and ward councillors should play a key role in assembling communities as well as in identifying key developmental matters concerning the wards they represent in the Municipality.

#### **4.5 Alignment between the District and Local Municipalities**

Alignment is the instrument that synthesises and integrates the top-down and the bottom-up planning process between different spheres of government. Not only is alignment between the District and the Local Municipalities important, but also between the Local Municipalities within the jurisdiction of the District Municipality.

The alignment procedures and mechanisms should be incorporated in the process plans of the Municipalities, while the responsibility for alignment rests with the District Municipalities. The IDP Manager for the District will be responsible for ensuring smooth coordination of local municipal IDP reviews and their alignment with the district IDP compilation through the use of workshops and bilateral discussions with affected sector departments or municipalities. The Intergovernmental Forum will also be used to ensure that beneficial alignment of programmes and projects occur.

## 6. ORGANIZATIONAL ARRANGEMENTS

The IDP preparation process requires extensive consultation and participation by communities, all role-players and key stakeholders in order to achieve a shared understanding of the municipal development trajectory. Although municipalities are expected to establish participation structures, it will however be critical to consider utilising existing arrangements, and adapt them if necessary, and avoid duplication of mechanisms.

## **8. AMENDMENT OF PROCESS PLAN**

The Municipality through the Office of the Mayor has a central role in monitoring the implementation of the Process Plan. Should there be a need to amend this Process Plan the following process will be pursued:

- The IDP/Budget Steering Committee will meet after each phase of the IDP to assess progress on the implementation of the Process Plan
- Each municipality will inform the District Municipality on likely deviations
- The IDP Steering Committee will make recommendation for amendments to the Municipal Process Plan as and when required
- The approval of any amendment to the municipal process plan is a competency of the Municipal Council.

## **9. CONCLUSION**

This Municipal Process Plan is compiled in terms of Section 28 of the Local Government Municipal Systems Act and binds municipalities as provided for in Section 28 (2) of the Act. Provisions of this document shall be followed by the municipality in the compilation of their **2018-2019** Integrated Development Plan.
