FOR IMMEDIATE RELEASE

DONATED CONTAINER OFFICES RECEIVED

SHWINGS Construction & Projects, a civil engineering company from Rosslyn in Pretoria donated container offices to the value of R150 000.00 as part of their marketing strategy to the Infrastructure Services of the municipality, particularly to the Project Management Unit.

These offices, which are said to be different from other because of their personalized composition were handed over by Mr. Khani Shisinwama and gladly accepted by the Executive Mayor, Cllr Mafunda L Makhubu and the Acting Municipal Manager, Mr. Sailor Netshivhale.

The donated product was manufactured by MECHTEQ Engineering which hails from Rosslyn in Pretoria and specializes in mechanical and structural engineering. This unique, electrifies and fully insulated 36m² unit is a combination of two standard units and is partitioned to accommodate three and possibly more individuals without feeling cramped.

According to the manufacturer, this type of structure offers limitless possibilities as it can be used for both accommodation and office space purposes and also provides for stacking to multiple levels which can therefore be housed in very limited areas.
