THE MUNICIPAL MANAGER DIPALESNG LOCAL MUNICIPALITY

Dear Sir

RECRUITMENT OF CASUAL WORKERS TO CONDUCT TRAFFIC COUNTS

The GSDM is a recipient of the Rural Roads Asset Management System (RRAMS) Grant whose purpose is to assist rural district municipalities in South Africa to implement road asset management systems (RRAMS), and to collect road condition and traffic data on municipal road networks in line with the Road Infrastructure Strategic Framework for South Africa (RISFSA). This data must further be incorporated into a Pavement Management System (PMS) that is to be used by Local Municipalities to ensure that their Road Maintenance Programs are based on scientific information to ensure the Municipal Infrastructure Grant (MIG) funding is spent correctly.

Strategic Outputs of RRAMS

1. Road condition data (paved and unpaved)
2. Traffic data
3. Bridge condition data

As part of the implementation of this program, Gert Sibande District Municipality is conducting traffic counts in your municipal area during the month of May 2024. The project will require 25 casual workers to conduct traffic counts for a period of 14 days during the said month. The advertisement for the recruitment is attached to this letter and we request your Human Resource section to assist with the distribution of the advertisement and collection of responses. The employment & payments of the casual workers will be concluded and funded by GSDM. All CVs will be collected after the closing date from your LMs and begin with the selection of qualifying individuals.

RECRUITMENT OF CASUAL WORKERS TO CONDUCT TRAFFIC COUNTS

We look forward to your support in the execution of this project which will provide some much-needed financial reprieve to the beneficiaries.

Yours Sincerely

.....
CA HABILE
MUNICIPAL MANAGER
